Canine Mast Cell Tumors: an updated review

Date: Wednesday, February 22, 2023

Time: Dinner 6:30 PM | Presentation 7:00 PM

Location: Western Veterinary Specialist & Emergency Centre*

RSVP: February 21, 2023

**Remote attendance available*

SESSION SYNOPSIS:

Canine mast cell tumors are one of the most common tumors seen in small animal general practice. This talk will provide an up to date review on the clinical presentation, diagnostic work up, staging & grading, and both standard and novel treatment options for canine mast cell tumors. There will be a special focus on clinical management of these tumors for the general practitioner.
