CONTINUING EDUCATION

Please join us for a live webinar with Dr. Tainor Tisotti, DVM (Practice Limited to Anesthesia).

Perioperative Analgesia

Dates: Wednesday, September 28, 2022

Time: 7:00pm

Location: Microsoft Teams Meeting

RSVP: September 26, 2022

SESSION SYNOPSIS:

Pain is one of the main concerns owners have when their animals undergo anesthesia. At the same time, it is often treated on a one-size-fits-all manner, or underestimated. This lecture aims to review analgesic options for dogs and cats, focusing on injectables for the intraoperative period, but also briefly covering local block and post operative options.

Dr. Tainor Tisotti, DVM (Practice Limited to Anesthesia)

Tainor obtained his Veterinary Medicine degree from the Federal University of Rio Grande do Sul in Brazil in 2015. After working for a year at the teaching hospital in the same university, he moved to Canada for a combined Residency and Doctorate in anesthesiology at the University of Guelph, which he completed in 2020. He stayed in Guelph for another year for a Post-Doctoral fellowship, as well as working in a private hospital in Toronto, before moving to Calgary to join the Western team. His special areas of interest are anesthesia of critical patients, analgesia, pharmacodynamics and cardiovascular support. He is responsible for improving the patient care during anesthesia, pain management, reduce anesthetic risk, as well as train and oversee technicians in the practice of anesthesia.
